Meet Centreville Robotics

Centreville Robotics (Team 5243) is a student-run FIRST robotics team from Centreville High School in Centreville, Virginia. Our team was founded during the 2013 school year upon a single notion; everyone can make a difference. We compete in FIRST Robotics Competitions (FRC) while promoting STEAM awareness and opportunities in our community. Our team is funded by Centreville Robotics Booster Club, a tax-exempt 501(c)(3) organization.

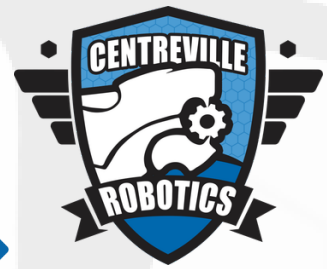

As an FRC team, our program strives to spread FIRST.

(For Inspiration and Recognition of Science and Technology) values and inspire young students to pursue careers in STEAM by engaging them in hands-on activities.

Through our program, Centreville Robotics students...

-  Apply engineering principles to design and build robots
-  Design and build through CAD
-  Collaborate with peers and mentors
-  Learn problem solving, project management, and financial skills
-  Serve our community as a STEAM resource
-  Network with STEAM professionals and companies

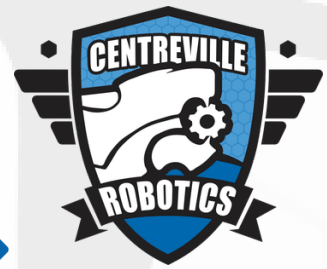

Team Achievements

- 2021 Chairman district and regional award winners
- FCH 2025 Rising all-star award winners
- Battle O' Baltimore Alliance Captain
- Finalists at 2025 FCH III Qualifier
- Competed in 2026 FCH District Championship
- 2026 FCH Qualifier I and III Imagery Award winners

We have created an identity for ourselves in our community, county, state, and nation by:

- Hosting numerous STEM outreach events
- Developing a four-year STEM curriculum at our high school
- Partnering with the Virginia High School League to recognize robotics as a school activity
- Advocating for increased STEM funding at the National Advocacy Conference in D.C.
- Creating STEM and robotics summer camps

Team Impact

Centreville Robotics has organized and participated in numerous outreach events in the DMV.

We make it our mission to inspire future generations to creatively tackle real-world challenges through STEM and robotics, fostering a passion for innovation within our community and beyond.

Social Skills Club

We teach LEGO robotics to neurodivergent children, building their technical, social, and teamwork skills through hands-on learning

Summer Camps

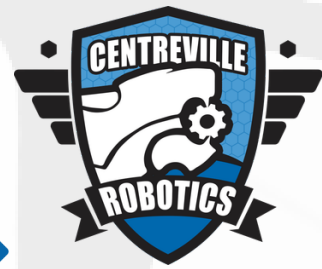

Taught elementary and middle school students CAD (Computer-Aided Design) and coding.

Stem Nights

Showcased the FRCrobot Chum Bucket at Laurel Ridge STEM Night and the FTC robot at Bull Run Elementary.

Herralink

Taught senior citizens LEGO robotics, fostering creativity, problem-solving, and technological engagement through hands-on learning.

Impact of Sponsorship

As a **student-led** organization, we are predominantly self-funded and reliant on aid from donors and sponsors; a model that allows our team carry out its mission.

Your support of Centreville Robotics will empower students to be the next generation of STEAM graduates and future leaders.

Ways You Can Help

- **Financial Donation:** Our team is dependent on funding from grants and sponsors. Sponsorships ensure our sustainability and STEAM access to all students.
- **Fuel the Team:** During build season, we spend countless hours in the workshop. Donations of team meals & snacks are always welcome and appreciated! Check out our social media for posts and stories about our wonderful donors!
- **Material Donation:** The materials required for building robots are expensive. Therefore any donation of tools or resources are very much appreciated. For questions regarding specific donations, please email the team!
- **Mentoring:** Mentors are vital to team operations. They provide technical and non-technical support while supervising members in the workshop.

Sponsorship Benefits

Gold Tier

(Donations \$3000+):

- Sponsor publicly announced at all competitions
- Company logo on competing robot
- Company logo on promotional materials
- Everything in the Silver, Bronze, and Community Helper tiers

Silver Tier

(Donations \$1000+):

- Listed on team brochures and presentations
- Everything in the Bronze and Community Helper tiers

Bronze Tier

(Donations \$250+):

- Company logo on team banner
- Social Media Promotion
- Everything in the Community Helper tier

Community Helper

(Donations <\$250):

- Listed on website
- Personal Thank You Letter from Team

Sponsorship Info

Thank you for supporting Centreville Robotics through Centreville Robotics Boosters Club Inc., a 501(c)(3) organization.

Our EIN is 47-5236422. Please complete the form and email to mentors@centrevilleroobotics.net. Checks can be given to your student contact, or mailed to:

**Centreville Robotics Booster Club, Inc
